

Our class is using LittleScribe!

Hi Parents,

This year we will be using LittleScribe to bring purpose and focus to writing. We will bring our school projects to life in the form of digital and real books, posters and cards.

LittleScribe has made it simple for students to turn and touch the pages of their own 'for real life book,' a powerful way to create meaning to learning.

I would like all parents to join me and sign up to LittleScribe. You will become your child's online audience, read their work, and support team by leaving comments and emojis. You can invite grandparents to be part of your child's private Book Club.

It is free and simple to use. We will send a letter with a unique code for you to connect with your child's account. Now let's get scribing!

Learn More

Schools are creating digital libraries celebrating their students as authors of all types of writing including, fact, joke, science, creative, poetry and art books.

LittleScribe is inviting the nation to Pencil Up! To create a 'new normal,' where books written by children are proudly found in homes, schools, coffee shops and libraries, read by a nation. Lets unite as a nation and Pencil Up!. To find out more
