

How does LittleScribe bring purpose to writing?

LittleScribe is a free platform:

For teachers, students and parents to use to turn kids' handwritten work into 'for real life' books, providing a purpose and an audience for their work, and fostering a sense of pride in their achievements.

It is free to create a:

- ✓ Digital book, card and poster
- ✓ Student account to store writing
- ✓ Classroom account to manage students
- ✓ Library for class and whole school

You can invite and connect parents to:

- ✓ Leave comments and emojis
- ✓ Access free writing activities for their child
- ✓ Join their child's Book Club

Schools and parents can choose to buy the kids' original books. Prices for an A5 12-page book (portrait or landscape):

"LittleScribe provided a purpose for writing and the results were tangible. Students were so proud of their writing and wanted desperately to share their creations with their peers and families."

Benefits for a school leader

A free account for every student and teacher

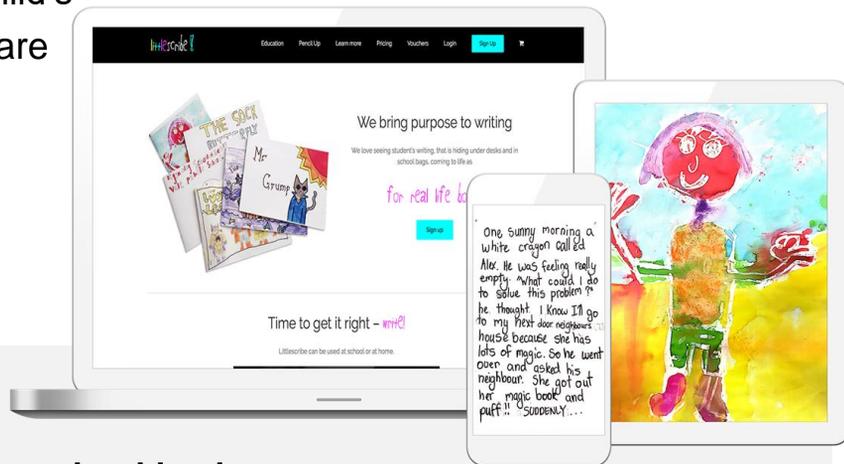

Littlescribe can set up a classroom for each teacher, with an account for every student in your school. Engagement in writing will be increased and a purpose for writing provided.

A meaningful connection between school and home

Parents can connect to their child's work to see the progress they are making in writing, and leave comments and emojis on the student's work.

Access to resources that promote engagement in writing

Teachers can access tutorials and resources that give practical ideas for classroom application. As well as writing complete books, teachers can use the resources to collect 'micro moments' of writing, which celebrate progression rather than perfection, and encourage everyone to write.
